

North of England East Premier T&F League meeting 2

The meeting, hosted by City of York AC at the York University campus, on Saturday 19th June, is subject to the limitations set by England Athletics and the venue.

I have been in contact with the meeting manager, and those measures are summarised as:-

Coaches with athletes competing at the match can attend, spectators are limited to one spectator for each U18 athlete competing in the declared team. Apologies to those who were hoping to be able to spectate, but we need to observe the restrictions set by the venue and host club.

Full details, showing the postcode for the venue, and the location of the club holding areas can be viewed on the pdf document below (from the Host club)

Hi All,

Well it's 1 week to go until the 2nd match of this 2021 series, the weather looks like it will be good for the day which is always a relief!

We have detailed the info for the match below – which are very similar to the first event.

Dave Paver is the meeting manager and his contact phone number is 07778950200. For Covid related issues please contact Greg How on 07973192230.

We will also issue a 2 way radio to each club (to one team manager) when you register, this will enable each club to contact us if there are any issues on the day. Please return this before you leave!

The address for the match is University Stadium, James Way, Heslington, York YO10 5DD in case anyone hasn't been here before and Ive attached a parking map below.

Timetable

We should be operating a full timetable. We will be using the version as for Div 1.

Events will be called up as usual but again, it is possible that having teams located around the stadium may make this difficult to hear. Please make sure that your athletes AND officials realise this is a possibility and that they should assume the programme is running to time and turn up at their events at the appropriate time ready to compete.

Covid Related

Attached is a link to the detailed information from Greg How about the requirements and procedures that we are required to put in place for this match due to Covid, if you have any questions please ask and Greg will assist you with your questions (his email is greg.how1@gmail.com).

<https://cityofyorkathleticsclubmeets.com/events/what-you-need-to-know-about-coming-to-an-event/>

1. Team Locations

By the time teams arrive we will have set up the designated locations for teams as shown on the map below. Please ensure that **everyone** travelling realises they will be expected to base themselves in that area.

2. Results

We will be posting results on a web page and this will be available during the day. Please ensure your athletes are aware of this there will be no results posted around the stadium.

It is planned that we will email results to club personnel as soon as possible after the event (not memory stick downloads). Please provide a list of any additional people who will want the information over and above those in the mailing list above.

3. Test and Trace

We will have the NHS Test and Trace QR Code on display at entrance gate to the track, please can all non athletes and officials use this method to register – by law we will need to know who has attended and please can we inform all attendees of this legal requirement (there will be manual sign ins but this is not expected to be the norm)

Each team should have a register of their athletes and officials to enable track and trace should it be required.

4. Catering

As per League guidelines, we will not be providing officials lunches. Please make sure they are aware of this. We will provide the facility for them to make hot drinks and have bottled water available. They can bring their own cup if they want!

Sadly, there will be nothing on sale for spectators.

5. Officials

Masks and gloves will be available for any officials that want them and hand sanitiser will be available at all appropriate locations.

Field Teams will be broken into teams that will remain in a bubble for the duration of the day.

Track Judges and Timekeepers will be expected to work as a bubble also for the duration of the event. For info, it is hoped to have photofinish in operation.

6. Athlete Warm Up

Basic warm up will be available on the back straight with entry from the 300m start point, please only athletes on the track area and be aware of the events being run.

7. Equipment

There will not be any stadium equipment available, each team should ensure that their athletes have the correct equipment for the day.

There will be sanitising stations at field event locations but athletes will be responsible for cleaning their own equipment as they feel appropriate.

Weighing of equipment will be available on request.

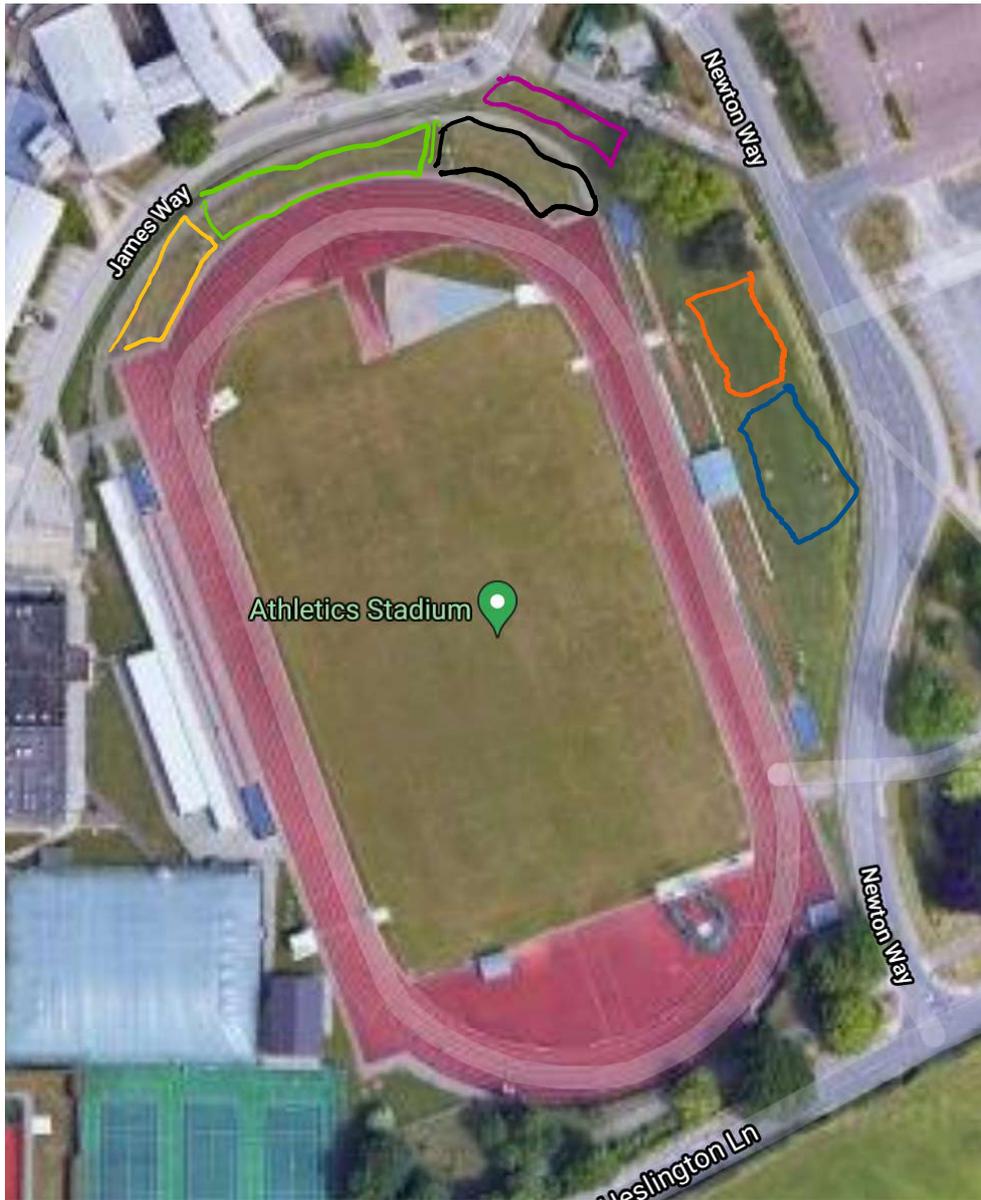

Toilets will be available on the day behind the main stand.

Hopefully that covers everything but it probably won't so if you have any additional questions PLEASE ASK.

Looking forward to Saturday.

Team Areas

- Wakefield
- Sheffield
- York
- Holmfirth
- Rotherham
- Leeds

Please note that the team areas are outside and in the sun (or rain) please make sure you come prepared for both weather conditions.

The stand has limited seating capabilities.
