

From Covid-19 Officer Steve Gaines:

Apologies to all those who were delayed getting in to the stadium yesterday evening, due to a misunderstanding of how the recently introduced NHS Covid App and Stadium QR code will be used for club training.

The way that the club training sessions will achieve & secure compliance with the Covid-Secure Environment necessary for club training, will be via the RH club Covid App which has been developed by Peter Humphries & in use for the last 2 months.

All attendees at club training MUST complete the Pre-activity health check questionnaire, on our Rotherham Harriers app, prior to arriving.

Those club members who have the NHS Covid App downloaded onto their phone are encouraged to scan the NHS QR code at the stadium for their personal safety & protection.

We want all to stay safe and keep healthy!
